About Me

A fresh graduate that has a hands-on-experience as a front-end developer intern. My objective is to utilize my passion in creating a user-friendly website that can contribute the needs of a business. I committed to contribute my technical skills while expanding my knowledge in my chosen field.

Work Experience

Kloudtech Corp. | Internship (Front-end Developer and UI/UX Designer)
March 2023 - Present
Key responsibilities:
- Look for a minimalist design of a website through the internet.
- Design and layout a business website and weather monitoring system for the company.
- Implement the mockup design of a website into a working code.
- Consult with the management team to develop new features on the hardware side.
- Suggest improvements based on the above information.

LGU Orani Bataan | Work Immersion
December 2018
Key responsibilities:
- Encode different data in the Excel sheet.
- Explored various LAN servers per office inside the municipal hall.
- I set up the sound system that was used in other events.
- Assembled and disassembled PC in the office.
